BOOSTING COMMUNITY-BASED TOURISM
AND YOUTH WORK FOR GLOBAL
SUSTAINABLE DEVELOPMENT

LOCATION

Monforte del Cid, Alicante

THEME OF YOUR CBT VOLUNTEERING EXPERIENCE

Wine production, Agriculture

CONTEXT

In the area, harvesting and working with grapes is becoming popular again, after a period of anonymousness among young people. A place like Monforte del Cid has depended for 50 years on the harvest of grapes. More than 80% of the grapes we consume on New Year's Eve come from this place, while the rest of the grapes are used to make wine in the nearby villages. Therefore, the objective is to work together with the authorities to promote these activities and to know how to do the harvesting and the processes that follow to transform them into wine afterwards so that the local communities in the area can benefit from it and give it a great touristic value.
