BOOSTING COMMUNITY-BASED TOURISM
AND YOUTH WORK FOR GLOBAL
SUSTAINABLE DEVELOPMENT

LOCATION

Molinicos, Albacete

THEME OF YOUR CBT VOLUNTEERING EXPERIENCE

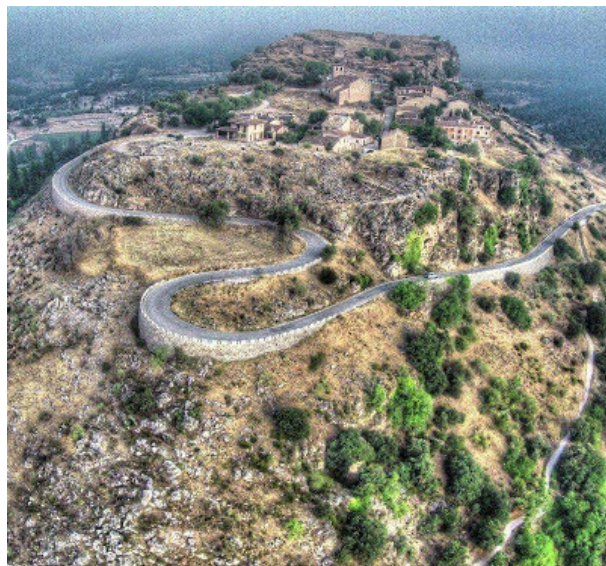

Rural art development

CONTEXT

Resilencio is a group that was born with the wish to rethink the relationship between inhabitants of a community and the connection of humans with nature.

They aimed to create a socio-cultural space for people who want to disconnect from their routine, and participate in activities that aim to foster links between the community through talks, workshops, exhibitions, cultural events, among other actions. Therefore Resilencio created a kind of 'rural university', that is open to anyone: their events happen in a wide range of topics, such as art and cultures, environment, food, social justice and so on, always with the perspective of sustainability.

SPAIN

PURPOSE OF YOUR CBT VOLUNTEERING PROJECT:

The purpose of your stay is to support the group to develop the creative space and manage its events and activities for the benefit of the community and the surrounding nature. You can contribute in the process of changing the town into a more harmonious one, as well as help spreading the experience and knowledge among members of this community.

Furthermore, you can support the promotion and growth of this holistic community project, in a wider international context, so that the concept has the potential to inspire others for similar initiatives or invite them to visit it and participate as contributors, or artists, experts, community members.

ACTIVITIES YOU CAN BE ENGAGED IN - BASED ON YOUR INTERESTS AND SKILLS:

You will be working as part of the Resilencio group, performing daily tasks that needs to be done in the space, organizing and managing the space itself.

You will work with the artists (both local and international) who will be staying there, and support them in their activities: make them feel at home, provide materials, arrange logistics, promote events, etc.

You will have the chance to support the organization and realization of workshops or facilitate some for the members of the community and the people of Molinicos.

You will also have the opportunity to join in the preparation and organization of festivals and different events that happen outside of this socio-cultural space, making an even deeper experience in the cultural sector and as an organiser. You will be a contact person for the members of the community, connecting locals with tourists who are arriving to the area to visit and enjoy this space and its activities.

INTERCULTURAL EXPERIENCE YOU WILL BE PART OF:

A small town as Molinicos can offer you a great possibility to get integrated into the community through the various cultural artistic and social gatherings that happen in it. You will take part in the social life actively, and have the chance to participate on traditional events together with locals, but even outside of these events, you will be experiencing the culturally typical meals, lifestyle, music and many other aspects of the area.

FACULTATIVE TRIPS YOU CAN CHOOSE FROM:

- Excursions to Rio Mundo and Riopar
- Tour in YESTE
- Rafting in the area
- Visit Albacete

YOU WILL BE HOSTED AT:

Will be hosted in the Resilencio House in Molinicos, where everything will be provided for a comfortable and pleasant stay.
